

Law Enforcement  
Network LLC

## LEN INVESTMENT OVERVIEW

# THE LAW ENFORCEMENT NETWORK COMPANY BIO:

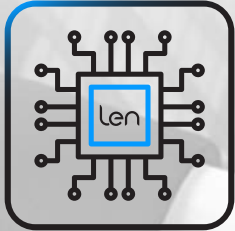

**The Law Enforcement Network (LEN) bridges the communication gap between citizens, police, and security firms. Our groundbreaking mobile app is designed to empower individuals in urgent situations, providing them a streamlined avenue to reach local first responders without the need to dial 911 or endure waiting times**

**With over 7,000 call centers scattered across cities and towns throughout the United States, covering 95% of the US population, we ensure that vital assistance is always a few taps away. We are deeply committed to leveraging advanced technology, fostering innovation, and engaging with citizens to redefine the way emergency responses are conducted, consequently boosting public safety levels.**

**We strive to deliver premier security solutions to our clientele and are humbled to be pioneers in this transformative endeavor, reshaping the future of emergency response.**

# INTRODUCING LAW ENFORCEMENT NETWORK PLATFORM:

**The LEN provides citizens with a secure way to stay vigilant against crime and safeguard public health and safety while keeping in touch with law enforcement agencies. With its robust platform, LEN helps people address potentially hazardous issues before they become serious problems.**

**LEN is transforming how we respond to emergencies with its innovative mobile app. Instantly, help can be accessed directly from local safety departments - safeguarding our communities against the threat of danger faster and more effectively than ever before.**

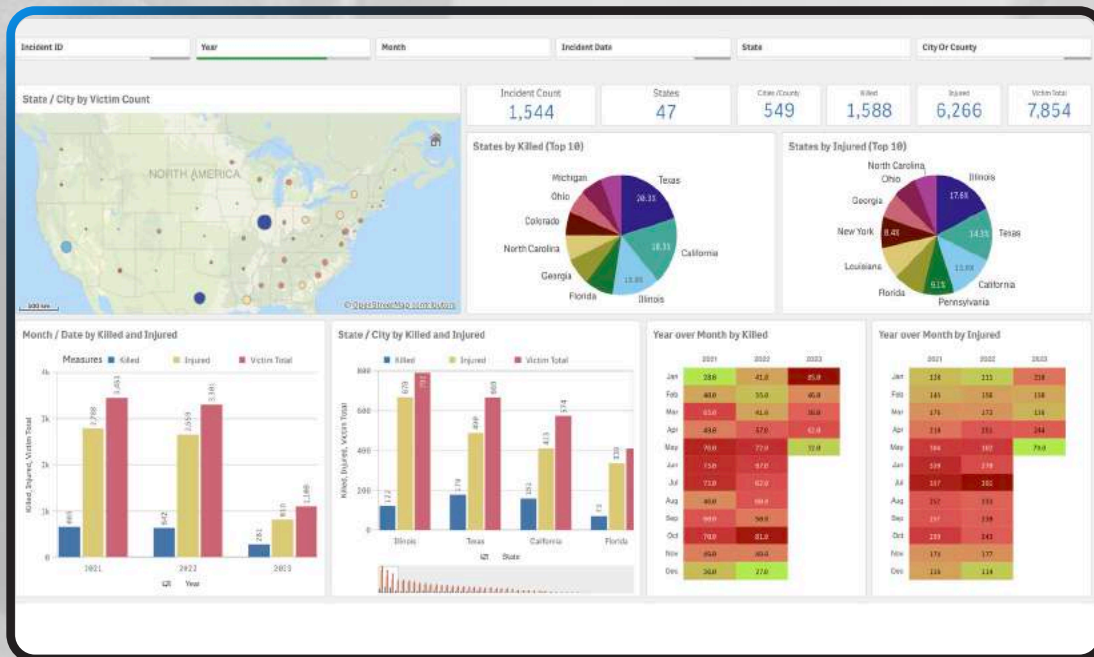

**Our AI Weapon Detection & Communication System is a cutting-edge solution designed to ensure the safety and security in public. With the rising need for enhanced protection in today's world, this advanced system combines artificial intelligence, sophisticated sensors, and seamless communication capabilities to create a robust defense mechanism.**

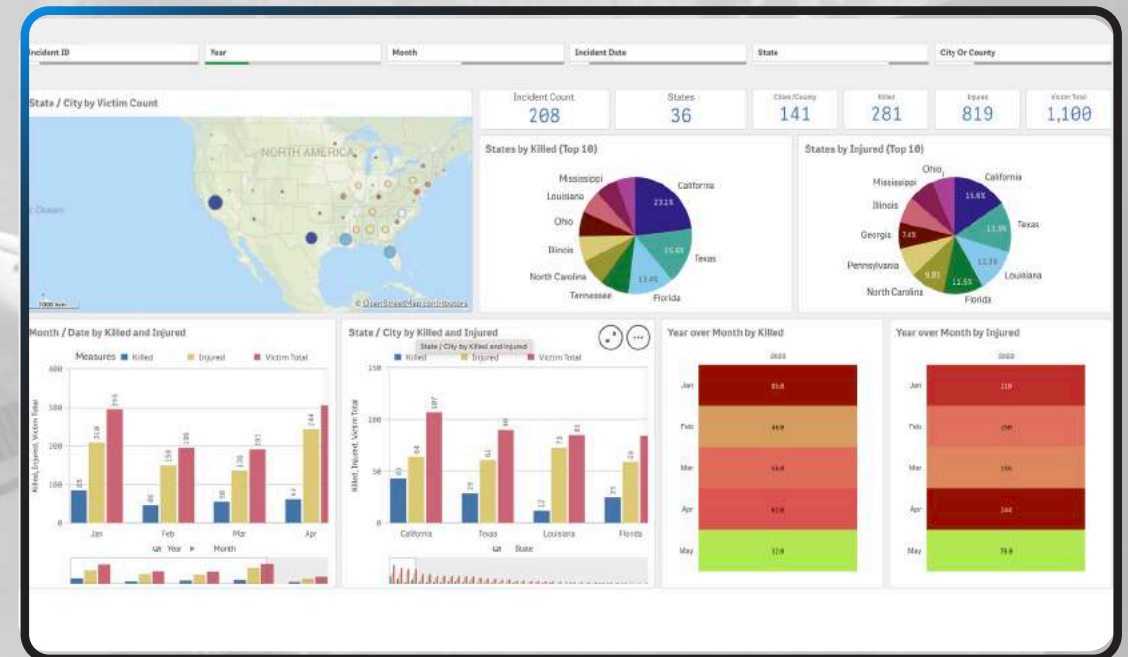

# MASS SHOOTING STATISTICS:

The 2023 is a grim year for the United States, with the country on track to record the highest number of mass killings in recent history, the alarming frequency of such incidents means that the US is now experiencing over two mass killing on average per week. Additionally, as of June 19th, 2023, the Gun Violence Archive has reported over 303 mass shootings in less than 170 days, each involving a minimum of four victims killed or injured by firearms, excluding the shooter. This uptick in violence has sparked concern and a call for immediate action to curb this trend.

**Mass Shooting  
(2021-2023)**

## LEN SAFETY ADVANTAGES:

# 1

### REAL TIME NOTIFICATIONS

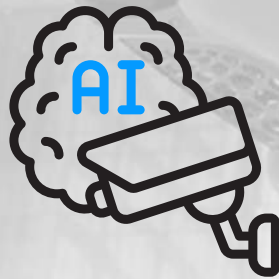

The LEN platform allows users to notify first responders and staff with emergencies in real-time.

# 2

### AI WEAPON DETECTION

LEN AI Technology detects weapons as soon as they are visible on camera, flagging threats before shots are fired.

# 3

### USER HISTORY

A detailed record of submitted reports by LEN users.

# 4

### PREDEFINED MESSAGES

The in-hand app's predefined messages improve communication between users, and first responders in real-time.

# 5

### HOT MAPPING

With HOT Mapping, LEN users will receive notifications with a map detailing the location of nearby threats.

## LEN SAFETY ADVANTAGES:

**6****LIVE LOCATION**

User route, updated every 5 seconds.

**7****EMERGENCY DEPARTMENTS**

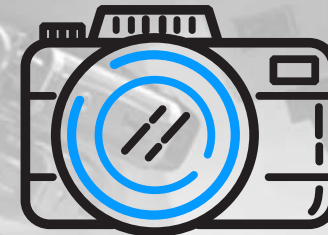

Allows first responders and users to communicate in real-time.

**8****HEALTH RECORDS**

Emergency responders receive LEN user's preexisting medical conditions and medication details when applicable.

**9****CAMERA + VIDEO ACCESS**

Submit a violation by sending a photo or video in real time.

**10****PANIC BUTTON**

Submit an emergency case, and a notification will be created and sent to the concerned department in real-time.

# LEN AI WEAPON DETECTION TECHNOLOGY:

## 1

Our artificial intelligence solution uses all available video feeds to continuously search for armed individuals.

## 2

Our AI is customized and continuously updated to recognize guns, knives and other weapons. Thus, enhancing safety and security in Public

Firearm: 0.96

## 3

Enables security and law enforcement agencies precious moments to address the situation in real-time.

## The LEN AI DETECTION TYPES:

**1**

### **WEAPON**

Weapon Detection contributes to the prevention of public shootings and violence.

**FIREARM**

**2**

### **FIRE**

Early fire detection system

**FIRE**

**3**

### **DRONES**

Standard drone detection.

**DRONE**

**4**

### **SMOKE**

Smoke detection at the source.

**SMOKE**

## TYPES OF EMERGENCIES LEN ADDRESSES

**Bullying**

**Active Shooter**

**Violence**

**Suicide**

**Medical Emergency**

**Fire**

**Bomb Threat**

**\* Further categories can be included**

# HOW LEN APP WORKS:

## 1

### LEN ADMIN MONITORING

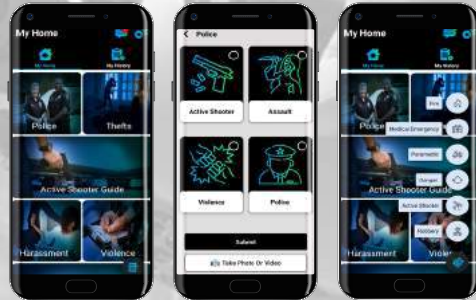

After the user submits an emergency case, a notification will be created and sent to the concerned department.

## 2

### SUBMIT VIOLATION And PANIC BUTTON

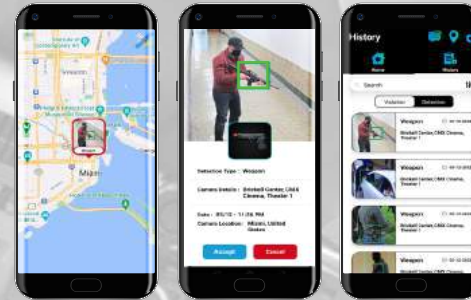

The In-hand app permits LEN users to report violations, invasions, breaches, or any kind of misbehaviors in two easy steps with a quick response.

## 3

### HOT MAPPING + LIVE LOCATION

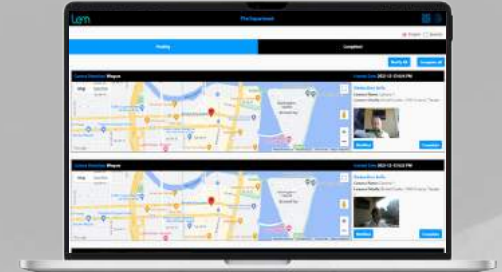

In times of distress, Len provides first responders with clickable maps indicating impending danger and pinpointing its exact location with incredible speed.

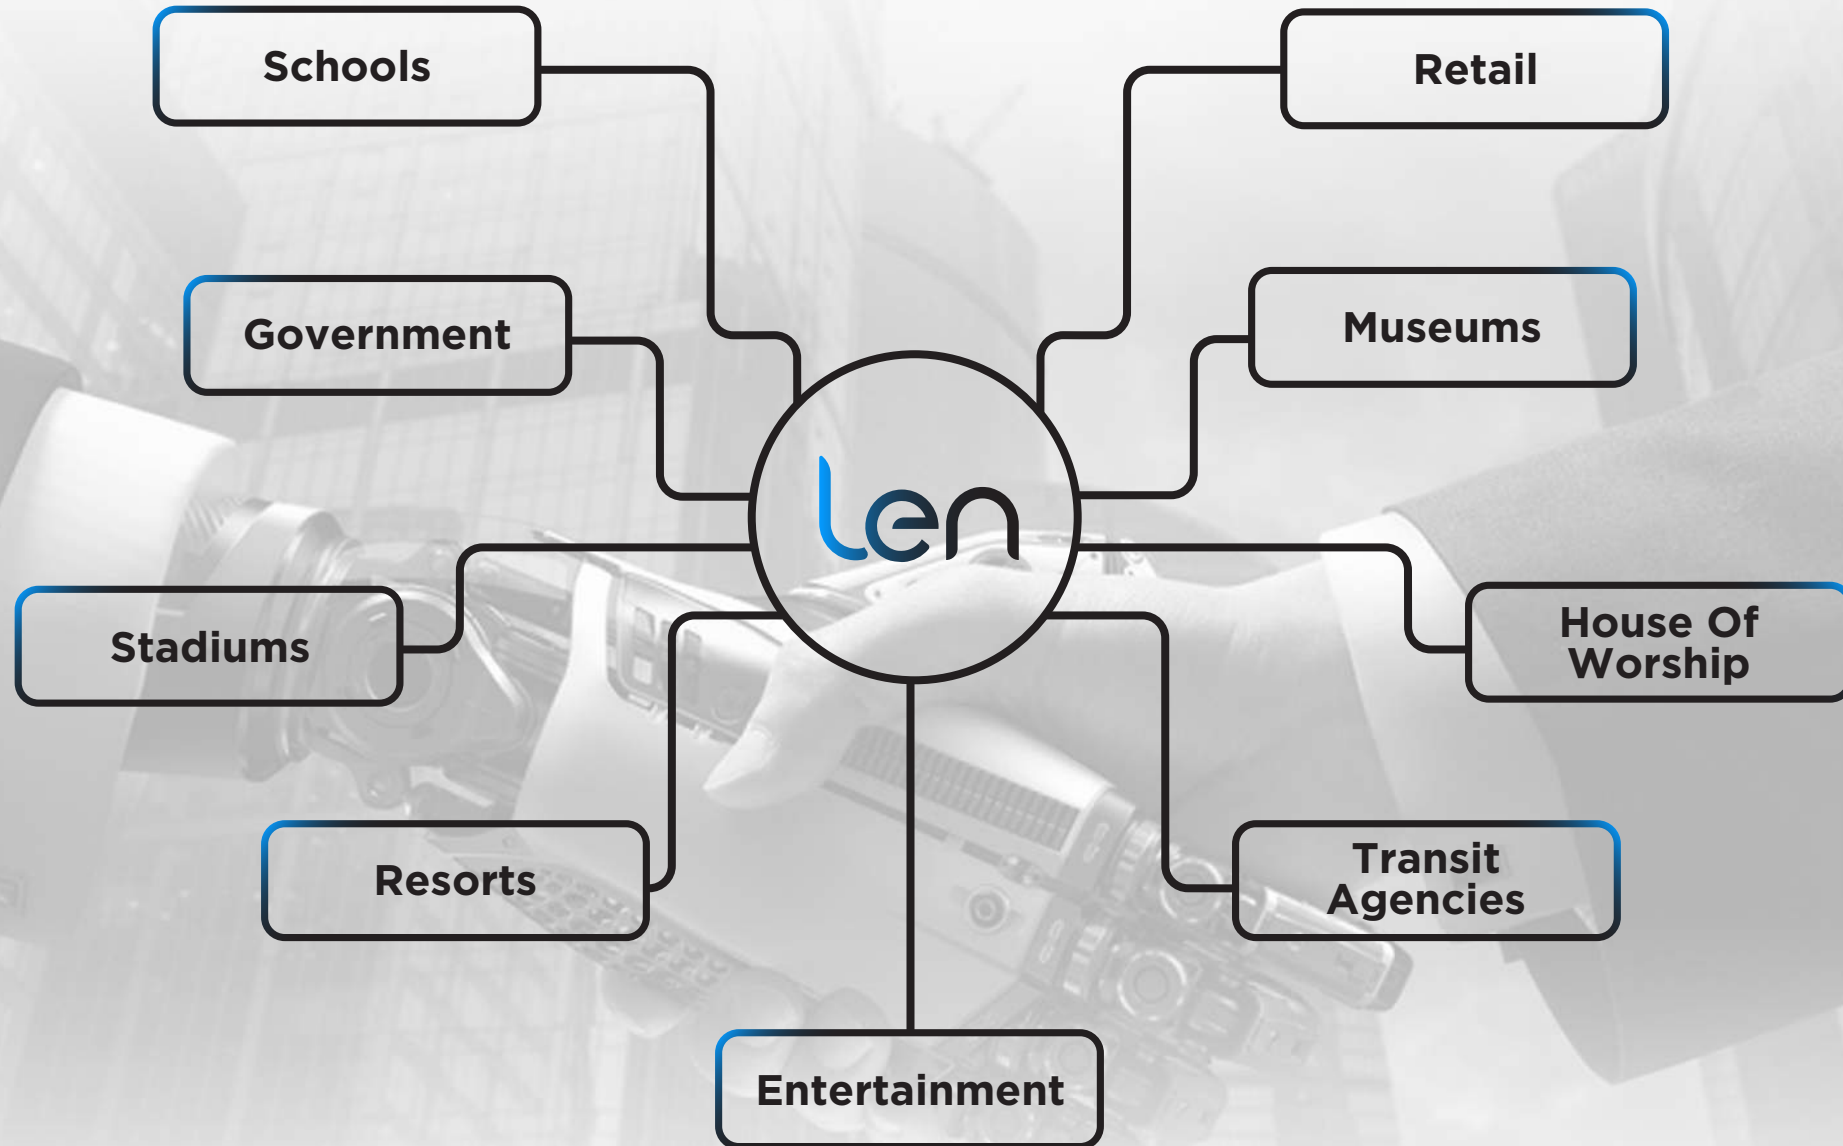

## 4

### REAL TIME MONITORING

LEN allows first responders to obtain notifications from citizens in real-time of critical conditions.

## NCPA AND OMNIA PARTNERS MASTER AGREEMENT:

The Law Enforcement Network Master Agreement awarded by OMNIA-NCPA to BeMotion-Law Enforcement Network (LEN) offers a comprehensive framework for procurement. Under this agreement, a wide range of public agencies - including states, cities, local governments, school districts, private K-12 schools, technical or vocational schools, higher education institutions, other government agencies, and nonprofit organizations - can procure LEN's products and services at the set prices indicated in the Master Agreement without any RFQ. This arrangement simplifies and streamlines the procurement process for these entities, providing them access to state-of-the-art security solutions at competitive, predetermined rates.

# The LEN PLATFORM IS "ACKNOWLEDGED" IN GOVERNMENT AND PUBLIC SECTORS:

The LEN Platform's acknowledgments in government and public sectors have been substantial. It has transformed the landscape of communication and collaboration, playing a critical role in optimizing public sector functionality. Government agencies have appreciated its abilities in bridging communication gaps, leading to more coherent and effective interdepartmental collaborations, as well as faster, more transparent service delivery to citizens. Public sector organizations like public health institutes, educational bodies, and transportation departments have lauded the platform for its role in promoting streamlined and efficient communication. These sectors have observed marked improvements in operational productivity, collaborative efforts, and stakeholder engagement since the integration of the LEN Platform. Its wide-ranging acceptance in these sectors signifies its importance and influence in modern professional communication infrastructure.

# FEW REFERENCE LETTERS

March 1, 2023

To Whom It May Concern,

Protecting our patrons and their families during these volatile times has been and will continue to be a critical focus for our management team. As the CEO of the Phillip & Patricia Frost Museum of Science, I worked personally with BeMotion - Law Enforcement Network on this significant project. We are impressed with the BeMotion team's expertise, professionalism, and commitment to excellence.

BeMotion has a proven track record of providing innovative and practical solutions to complex problems. Their communication platform and AI weapon detection system will be a valuable asset to our institution and law enforcement agencies.

The communication platform BeMotion - Law Enforcement Network developed will allow our security staff to communicate more effectively and efficiently, which is critical in emergencies. The platform is easy to use, reliable, and secure, ensuring essential information is shared quickly and accurately.

In addition, the AI weapon detection and notification system developed by BeMotion - Law Enforcement Network is a game-changer allowing our staff and local law enforcement to receive real-time information, leading to faster and more organized response efforts.

I highly recommend BeMotion - Law Enforcement Network, their communication platform, and AI weapon detection notification system. Their expertise, innovation, and commitment to excellence make them an ideal partner for our organization and law enforcement agencies seeking to improve their communication and response capabilities.

Sincerely,  
  
 Frank Steinhilber

(LEN) LAW ENFORCEMENT NETWORK

February 7th, 2023

In an uncertain time of increased crime, high criminal acts being perpetrated throughout the country, there is an immediate need to implement crime prevention measures that protect life and property.

In response to assist those charged with the responsibility and accountability of ensuring public safety measures that are not only effective, but limit liability, risk and exposure is our creation of (LEN) Law & Enforcement Network.

LEN is a platform designed for law enforcement agencies, in-house and private security companies or corporations to monitor crime prevention, safety awareness, and immediate emergency situations.

LEN provides a mobile application that includes an admin panel designed to provide immediate notification to local law enforcement, emergency management, security and public safety officers and all other first responders by allowing the general public to provide the real-time critical information needed to address any situation from natural disasters, fires, explosions, terrorist, active shooter, in-progress violent crimes that include robberies and sexual assaults as well as civil unrest where there is a potential of violence, theft, looting and criminal damage to property.

This unique proactive platform is our revolutionary approach for citizens and community leadership to play a vital role through the ability to monitor and communicate with staff and visitors. An additional feature allows for the capability to not only observe but to monitor the activity and track an individual's every movement with the precise location of the event and activity taking place without having to make direct contact or communication with the individual/offender, minimizing the risk of harm to staff, bystanders and the general public while still maintaining the capability of addressing any situation or incident in a manner that complies with the respective policies and procedures to deescalate and/or neutralize any threat to life and safety and resolve the situation and restore peace and order.

We continue to provide additional solutions, functions, and capabilities to address public safety needs.

Sincerely,

Carlos Rodriguez - CEO / Founder

## LAW ENFORCEMENT

23rd Feb 2023

GDH FIRST RESPONSE & SECURITY SOLUTIONS LTD.

We write to confirm that we have recently signed with BeMotion Inc., Law Enforcement Network (LEN Platform). The world is trying to get back to some sense of normalcy, and colleges and universities are faced with the daunting task of providing a safe environment for their students.

Many campuses have turned to the LEN platform to help with this. LEN is designed to connect returned students and security personnel agents in real time, allowing for a quick response to any potential threats.

If you're looking for a platform that can help keep your environment safe, look no further than the Len Platform. This highly reliable and secure system is perfect for students who need to share information, as it ensures that everyone remains safe. The Len Platform is also being used by businesses and government agencies to protect their employees and citizens, respectively. With its excellent track record, there's no doubt that the Len Platform is quickly becoming the go-to choice for those who want to ensure a safe environment.

We would highly recommend the LEN Platform for all universities and public buildings.

Best regards,

### TAB 2 NCPA ADMINISTRATION AGREEMENT

This Administration Agreement is made as of December 1, 2022, between National Cooperative Purchasing Alliance ("NCPA") and BeMotion Inc. ("LEN Platform" / "Vendor").

#### Recitals:

WHEREAS, Region 14 ESC has entered into a certain Master Agreement dated on December 1, 2022, referenced as Contract Number 14-22 by and between Region 14 ESC and Vendor, for the purchase of Threat and Weapons Detection Software and Equipment;

WHEREAS, said Master Agreement provides that any state, city, special district, local government, school district, private K-12 school, technical or vocational school, higher education institution, other government agency or nonprofit organization (hereinafter referred to as "public agency" or collectively, "public agencies") may purchase products and services at the prices indicated in the Master Agreement;

WHEREAS, NCPA has the administrative and legal capacity to administer purchases under the Master Agreement to public agencies;

WHEREAS, NCPA serves as the administrative agent for Region 14 ESC in connection with other master agreements offered by NCPA;

WHEREAS, Region 14 ESC desires NCPA to proceed with administration of the Master Agreement;

WHEREAS, NCPA and Vendor desire to enter into this Agreement to make available to Master Agreement to public agencies, a national basis;

NOW, THEREFORE, in consideration of the payments to be made hereunder and the mutual covenants contained in this Agreement, NCPA and Vendor hereby agree as follows:

#### General Terms and Conditions:

• The Master Agreement, attached hereto as Exhibit 1 and incorporated herein by reference as though fully set forth herein, and the terms and conditions contained therein shall apply to this Administration Agreement except as expressly changed or modified by this Administration Agreement.

• NCPA shall be afforded all of the rights, privileges and indemnifications afforded to Region 14 ESC under the Master Agreement, and such rights, privileges and indemnifications shall accrue and apply with equal effect to NCPA under this Administration Agreement including, but not limited to, Contractor's obligation to provide appropriate insurance and certain indemnifications to Region 14 ESC.

June 15th, 2023

To Whom It May Concern,

The security and well-being of our students, staff, and community members are at the top of our priority. As the President of the MLMPI Prep School System, I had the privilege to operate a collaboration with the Law Enforcement Network (LEN) on a mission-critical initiative to augment the safety measures at our establishment substantially. The LEN team's stellar professionalism, adaptability, and steadfast commitment have significantly impacted and elevated our institution.

Law Enforcement Network holds an illustrious reputation for devising state-of-the-art and pragmatic resolutions to multifaceted security challenges. Their LEN AI Weapons & Communication Platform is an invaluable asset for our twelve schools and collaborating with law enforcement agencies, ensuring an environment where learning and growth can thrive without apprehension.

The LEN AI Weapons & Communication Platform optimizes integrity and effectiveness, the communication aspect of the platform is pioneering in its approach, as it streamlines and expedites communication amongst our security staff. LEN is indispensable in crisis scenarios, allowing for swift and informed decision-making. It is user-friendly, reliable, and safeguarded, ensuring instantaneous and precise sharing of critical intelligence.

Moreover, the LEN AI Weapons Detection component of the platform is transformative. Utilizing cutting-edge AI technology, it provides our security personnel and local law enforcement with real-time threat detection, paving the way for prompt and well-informed response strategies.

As the President and guardian of the MLMPI Prep School System, I extend my most sincere endorsement for the Law Enforcement Network and their LEN AI Weapons & Communication Platform. Their mastery, building trust, and ensuring the safety of our students and staff are unparalleled. We are grateful for the established partnerships and law enforcement agencies seeking to fortify their security communication and response mechanisms.

With the highest regards,

DANIEL PUDIS

## SCHOOLS

Robert A. Chamber  
 Chief of Security  
 Email: [robert@rapidresponse.com](mailto:robert@rapidresponse.com)

Date: December 8th, 2022

To Whom It May Concern:

The BeMotion Inc. "LEN" Technology will be set up by 2023. The future of security is here with the Len Platform. This state-of-the-art technology uses AI to screen people as they enter and leave government buildings. This will help to improve safety for everyone involved, from law enforcement officers to citizens. The Len Platform will be up and running by 2023, so don't wait to get on board with the latest and greatest security technology.

The LEN platform is a game-changer for law enforcement and the community. It provides a secure, reliable way for people to share information in real-time, which helps to improve communication and coordination between police and the community. With LEN, citizens can play a vital role in keeping their communities safe by sharing tips and information with law enforcement agents. And because it's accessible from any smartphone or computer, anyone can use it to make a difference. So if you see something suspicious, or have information about a crime, share it on LEN. It could help save lives.

I would recommend this technology and innovation to any government office or business to properly screen members of the public and employees who enter and move through the facilities and public transportation daily.

Respectfully,  
  
 Robert A. Chamber

## SECURITY AGENCY

FROM:  
 New York City Transit  
 2 Broadway, New York, NY 10004

January 21st, 2023

TO:  
 BeMotion Inc. - Law Enforcement Network  
 800 Brickell Ave  
 Miami, Florida 33131

To Whom It May Concern,

New York City's subway system is one of the busiest in the world, carrying millions of passengers every day. Safety is a top priority for the MTA, and we are always looking for ways to improve. After an extensive evaluation process, we have decided to move forward with the LEN technology for our staff and community safety. We will start with a three-month pilot with law enforcement New York City, and we are excited to roll out the program before Christmas.

The goal is to be in over 300 stations by the fourth quarter of 2023. LEN stands for Law Enforcement Network, a system that uses AI to detect potential threats and when someone has fallen onto the tracks. An alert is sent to nearby station staff, who can then respond quickly to assist.

We believe that this technology has the potential to save lives, and we are committed to making our subway system as safe as possible for everyone who rides it.

Thank you for this Opportunity.
